## Introduction

The U. S. Environmental Protection Agency was created in 1970 with the consolidation of programs from other existing Federal agencies. The libraries were drawn together into a nationwide network that now includes 28 participating EPA sites. Technical direction and the coordination of library ADP systems support is the responsibility of the Office of Library Systems and Services (OLSS) at EPA Headquarters in Washington, D.C.

This Guide, which was prepared and distributed by OLSS, provides background on the formation of each library and describes the collection and services available. Generally, facilities are open to the public from 8:00 a.m. to 4:30 p.m. It is suggested that the hours of operation be verified at any specific location. The telephone numbers listed are either commercial (CML) or Federal Telecommunications System (FTS) numbers.

The appendices provide the legend of EPA library codes, an alphabetical list of the cities in which libraries are located, and the names of staff members. To increase the utility of this new edition, each list includes telephone numbers.

Barbara A. Pedrini, Editor
EPA Headquarters Library
401 M Street, S.W., PM-213
Washington DC 20460

Headquarters Library
Washington, D.C.

Codes: 03B/EJB

Address: Headquarters Library, PM-213
U. S. Environmental Protection Agency
401 M Street, S.W., Room 2404 WSM
Washington DC 20460

Telephone: (202) 755-0308 (CML)
(8) 755-0308 (FTS)
(8) 755-0386 (FTS/ILL)

Librarian: Ms. Sami Klein

Staff: Ella Alexander
Bruce Ingalls
Claudia Norwood
Leonard Samowitz
Alice Wills

Hours: 8:00 a.m. - 4:30 p.m., Monday - Friday

The Headquarters Library was established in 1972, absorbing the collection of the former Federal Water Quality Administration, which emphasized water quality, supply and pollution. In support of EPA programs, additional subject areas have been developed: solid waste management, resource recovery, air pollution, noise abatement, radiation, hazardous wastes, pesticides, chemistry and toxicology. There is an emphasis on social, economic, legislative, legal, administrative and management literature related to all aspects of environmental pollution and control.

The collection comprises 7000 books; 1000 current subscriptions to journals, abstracts and indexes, newsletters and newspapers; 28,000 hard copy documents and technical reports generated by government sources or the private sector; and 175,000 others on microfiche (including reports of EPA and its predecessor agencies). The microfilm collection covers back files of major newspapers, indexing and abstracting services, and periodicals.

Headquarters Library (cont'd) Codes: 03B/EJB

The library primarily serves EPA staff in the Washington Metropolitan Area and provides support wherever possible to all other EPA libraries, including literature search services. The public, nearby university communities, and Agency consultants and contractors have access to the collection and may reproduce up to 25 pages of literature not covered by copyright. Material is loaned to Agency personnel; other users must submit interlibrary loan forms.

The following services are available: selection, acquisition, cataloging, announcement of new materials, circulation, reference, literature searching, SDI, interlibrary loan and bibliography preparation.

Region 1, Boston

Codes: 01A/EHA

Address: Library
U. S. Environmental Protection Agency
Region 1
JFK Federal Building, Room 2100-B
Boston MA 02203

Telephone: (617) 223-5791 or 223-4017 (CML)
(8) 223-5791 or 223-4017 (FTS)

Librarian: Ms. Ruth K. Seidman

The library was established in 1967 at the New England Basins Office, Northeastern Region, of the Federal Water Pollution Control Administration. The collection at that time consisted largely of material dealing with water quality and related subjects. Since the creation of EPA in 1970, the collection has been developed extensively in the fields of solid waste management, air pollution, pesticides, radiation and noise abatement. Literature relating to New England (Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island and Vermont) and its environmental concerns receives particular emphasis.

The collection includes indexing and abstracting sources, books, journals and newsletters, government documents, and technical reports. The library provides reference, circulation, interlibrary loan and current awareness services for the EPA offices in the greater Boston area. Outside users--students, university faculty members, industry, and local citizens' groups--have on-site use of the collection, as well as limited reference service and borrowing privileges.

A branch library is in operation at the EPA laboratories in Lexington. This collection is also open to the public. Contact:

Ms. Niki Theodoras, Librarian
U. S. Environmental Protection Agency
Division of Surveillance and Analysis
60 Westview Street
Lexington MA 02173
(617) 861-6700 (CML)

Region 2, New York

Codes: 02A/EIA

Address: Library
U. S. Environmental Protection Agency
Region 2
26 Federal Plaza
New York NY 10007

Telephone: (202) 264-2881 (CML)
(8) 264-2881 (FTS)

Librarian: Herbert Luger

The library, organized under the auspices of the Federal Water Pollution Control Administration, is heavily oriented toward water, but embraces all aspects of EPA's environmental mission. The collection includes over 3000 monographs, 12,000 federal, state and local documents and technical reports, and 275 journals and abstract services. Among these are archival resources in public health and legislative areas. Holdings are distributed between New York and the field office in Edison, N.J., and focus on Region 2, which comprises New York, New Jersey, Puerto Rico and the Virgin Islands.

The library serves the regional and field offices, the Industrial Waste Treatment Research Laboratory, their consultants and contractors. It is open to the general public, with limited service provided as time and staff permit.

Region 3, Philadelphia — Codes: 03A/EJA

Address: Library
U. S. Environmental Protection Agency
Region 3
Curtis Bldg., 6th & Walnut Streets
Philadelphia PA 19106

Telephone: (215) 597-0580 (CML)
(8) 597-0580 (FTS)

Librarian: Diane McCreary

The Region 3 library was started in Charlottesville, Virginia, and moved to Philadelphia in April, 1972. At present, the collection consists of approximately 3000 books, 250 subscriptions to business and technical periodicals and newsletters, and over 90,000 environmental reports in microfiche. In addition, a complete set of EPA reports is maintained.

All of the environmental sciences are included in the library's holdings, as well as related areas such as energy, economics and toxicology, particularly as applied to Delaware, Maryland, Pennsylvania, Virginia, West Virginia and the District of Columbia. Legal materials, emphasizing federal and environmental law, have been integrated into the collection. Other special collections are being developed in management/public administration and wetlands ecology.

The Region 3 library primarily serves EPA staff. Its services include centralized book and journal acquisition for the Regional Office, circulation, reference and interlibrary loan. Computerized literature searching and current awareness services are available in-house through the use of the Lockheed DIALOG and NLM MEDLARS information systems. An acquisitions list is compiled and distributed bimonthly.

The library is open to the public; however, loans are made to other libraries and government agencies only. Photocopy equipment is available, as well as microform reader/printers. Microfiche duplicates of non-copyrighted material can be made in limited quantities.

Region 4, Atlanta

Codes: 04A/EKA

Address: Library
U. S. Environmental Protection Agency
Region 4
345 Courtland Street, N.E.
Atlanta GA 30308

Telephone: (404) 881-4216 (CML)
(8) 257-4216 (FTS)

Librarian: Carolyn Mitchell

Technician: Patricia Ivie

The Region 4 library was established in May, 1973. Subject areas covered are water, air, solid waste, radiation, noise, pesticides, and hazardous waste pollution, with a specific focus on these problems in the southeastern region of the United States, namely Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina and Tennessee. There is some coverage of energy, land use, and management theory, but the collection is most extensive in the areas of water and air pollution. There is a small general reference collection.

The holdings include approximately 350 journal and newsletter titles, 1600 books and 26,000 technical reports. Also included is a complete set of 100,000 air pollution technical articles on microfiche from the Air Pollution Technical Information Center.

The library provides the Region 4 staff with reference, circulation, interlibrary loan and current awareness services. Limited reference assistance is also provided to the general public. Office of Public Awareness materials, including films and a newspaper clipping file and index, can also be found in the library.

Region 5, Chicago

Codes: 05A/ELA

Address: Library
U. S. Environmental Protection Agency
Region 5
230 South Dearborn St., Room 1417
Chicago IL 60604

Telephone: (312) 353-2022 (CML)
(8) 353-2022

Librarian: Ms. Lou W. Tilley

Staff: Ms. April Katsura
Ms. Augusta G. Bloom

Hours: 10:00 a.m. - 5:00 p.m., Monday - Friday (only local EPA staff may use the library before 10)

In January, 1972, the Region 5 library came into being. Much of the material housed there came from pre-EPA offices of the Department of Health, Education and Welfare's Public Health Service and the Department of Interior's Federal Water Pollution Control Administration (and FWQA).

The collection consists of 12,000-15,000 documents and reports in paper copy generated by international, federal, interstate, state, regional and local governmental agencies and private endeavors. There are currently about 2500 book titles and 500 journal subscriptions in effect. There are some 100,000 items in microfiche. The subject areas of the collection are water pollution, water quality, water supply, air quality, air pollution, solid waste management, resource recovery and recycling, hazardous wastes, toxic substances, noise, pesticides and radiation. The emphasis is on the Great Lakes and the six states in the Region: Illinois, Indiana, Michigan, Minnesota, Ohio and Wisconsin.

There is a sizable collection of U. S. Geological Survey Water Supply Papers and Water Resources Data for Region 5 states and other contiguous states. Paper copy of most of the proceedings of the enforcement conferences held in Region 5 is available in the library. Other special

collections include EIC Statefiche, EIC microfiche (1977 to present) with indexes, 85,000 APTIC items, EPA reports in microfiche, about 75 video cassette tapes, and a law collection with federal law emphasis (separately housed).

There is a vertical file collection of pamphlet/reprint materials.

The library offers acquisition, reference, circulation, interlibrary loan, and literature searching services to the Region 5 staff and provides some of these services on a limited basis to the general public.

Region 6, Dallas

Codes: 06A/EMA

Address: Library
U. S. Environmental Protection Agency
Region 6
1201 Elm Street
First International Building
Dallas TX 75270

Telephone: (214) 767-7341 (CML)
(8) 729-7341 (FTS)

Librarian: Mrs. Dee Crawford

Reference materials for water quality planning constituted the beginning of the collection which became the EPA Region 6 library in July, 1971. More than 4000 documents on all phases of environment are in the document control system, with special emphasis on the five-state area of Texas, New Mexico, Louisiana, Oklahoma and Arkansas and the Western Gulf Coast. The collection also includes EPA reports in paper copy and microfiche, plus 3000 reprints, 300 reference items, 1000 books, 4000 law volumes, subscriptions to 300 periodicals, newspapers, newsletters and serial services, and more than 200,000 microfiche.

Services include circulation, interlibrary loan, literature searches, reference, current awareness reports, and assistance to state and local environmental libraries and citizens. As part of the Region 6 Information Center, the library is open to the public from 8:00 a.m. to 4:00 p.m., Monday through Friday, except holidays.

Region 7, Kansas City

Codes: 07A/ENA

Address: Library
U. S. Environmental Protection Agency
Region 7
324 East 11th Street
Kansas City MO 64106

Telephone: (816) 374-3497 (CML)
(8) 758-3497 (FTS)

Librarian: Ms. Connie McKenzie

The library was established in July, 1970. Its holdings consist of some 15,000 technical reports, 2500 trade books, 300 periodicals, 75,000 technical reports on microfiche, Congressional hearings and reports on microfiche for 1970-1975, and the Federal Register on microfiche for 1970-1978. Also included are environment-oriented documents from the states in Region 7: Iowa, Kansas, Missouri and Nebraska.

The major subject areas covered are air and water pollution, solid waste management, pesticides, environmental law, radiation, agricultural pollution, water hygiene, chemistry, biology, ecology, management, economics, geology, urban planning and transportation.

Services provided are reference, interlibrary loan, circulation, acquisitions, and literature searching. The library is also open to the public.

Region 8, Denver

Codes: 08A/EOA

Address: Library
U. S. Environmental Protection Agency
Region 8
1860 Lincoln Street
Denver CO 80295

Telephone: (303) 837-2560 (CML)
(8) 327-2560 (FTS)

Librarian: Delores Eddy

Staff: Lesley Garcia

Organized in 1973, the Region 8 library includes materials on all EPA programs: air, water, solid waste, pesticides, toxic substances, noise and radiation, particularly as they relate to the states within the Region: Colorado, Montana, North Dakota, South Dakota, Utah and Wyoming. In addition, because the Rocky Mountain area is bearing heavy impact from energy development, the library collects energy publications and subscribes to a wide range of energy periodicals. And, finally, to support other aspects of Agency programs, the collection incorporates publications relating to economics, transportation, planning, management and employee development. A microfiche collection of approximately 100,000 documents supplements the hard copy report holdings.

General library services are provided to the regional office staff. Second copies of EPA reports are available for loan to other libraries, government agencies, businesses and organizations in the Region. The library is open to the public for reference use. Limited telephone and in-person reference service is provided as time and staffing permit.

There are no public duplicating facilities available in the building for either paper copy or microfiche. The library staff will copy up to ten pages per user at no charge. Photocopies are made once a week and mailed to requesters.

Region 9, San Francisco — Codes: 09A/ERA

Address: Library
U. S. Environmental Protection Agency
Region 9
215 Fremont Street
San Francisco CA 94105

Telephone: (415) 556-1840 (CML)
(8) 556-1840 (FTS)

Librarian: Ms. Jean Circiello

Reference Staff: Ms. Florence Pearson
Ms. Patricia Maravilla

The Region 9 library was established in 1969 as part of the Federal Water Pollution Control Administration and was transferred to EPA in 1970. Its collection covers environmental pollution and policy, especially as related to the Region: California, Arizona, Nevada, Hawaii and the Pacific Islands. Included in the collection are a complete set of environmental impact statements and a collection of speeches given by EPA senior staff.

Holdings consist of 4000 books, 350 journal titles, 30,000 reports and 125,000 microfiche. A small law collection is maintained.

General library services are provided to the EPA staff in the Region. Materials are loaned to regional staff members and to other libraries. EPA libraries may telephone their requests; others should submit interlibrary loan forms.

The library/information center reference desk responds to requests from the public for information on Agency programs. The library is open to the public, to whom reference services are available.

Region 9 maintains one field office with a small library collection consisting of EPA reports and other Agency-generated information. The facility is:

Pacific Islands Contact Office
U. S. Environmental Protection Agency
1000 Bishop Street, Room 601
Honolulu HI 96813

Staff: Vicki Tsuhako
Vicki Y. Robinson

(808) 546-8910 (CML and FTS)

Region 10, Seattle — Codes: 10A/ESA

Address: Information Center
U. S. Environmental Protection Agency
Region 10
1200 Sixth Avenue
Seattle WA 98101

Telephone: (206) 442-1289 (CML)
(8) 399-1289 (FTS)

Librarian: Arvella Weir

Assistant: Lynn Williams

The library came into existence in 1971, based on material from the Federal Water Quality Administration office in Portland, Oregon. The collection originally was heavily oriented toward water pollution, but has since been developed to encompass all other areas of environmental quality.

At present, the holdings include monographs, 170 journal and abstract titles, a basic environmental law collection, EPA reports (hard copy and microfiche) and the local and state government reports. The non-EPA portion of the collection is focused mainly on materials pertinent to the four Region 10 states: Alaska, Idaho, Oregon and Washington.

The services available are acquisitions, circulation, inter-library loan, literature searching, reference and referral to other information sources within the Regional Office. The library is also open to the public for reference use.

Narragansett, Rhode Island — Codes: 01B/EHB

Address: Library
U. S. Environmental Protection Agency
Environmental Research Laboratory
South Ferry Road
Narragansett RI 02882

Telephone: (401) 789-1071, ext. 265 or 268 (CML)
(8) 838-4843, ext. 265 or 268 (FTS)

Librarian: Miss Rose Ann Gamache

This library was founded in 1966 in support of the then National Marine Water Quality Laboratory, charged with establishing water quality criteria for marine and estuarine waters. The major subject areas covered are biological oceanography, marine ecology, biomedical science, fisheries biology and chemistry. The holdings consist of 3000 books, 40 periodicals, technical reports, government documents and various types of microfilm, all related to basic applied research of a multidisciplinary nature.

Services provided to EPA staff include reference, information retrieval, selection, acquisition, cataloging, circulation and interlibrary loan.

Edison, New Jersey — Codes: 02B/EIC

Address: Library
U. S. Environmental Protection Agency
Region 2 Field Office
Edison NJ 08817

Telephone: (201) 321-6762 (CML)
(8) 340-6762 (FTS)

Librarian: Ms. Dorothy Szefczyk

The library, organized under the auspices of the Federal Water Pollution Control Administration, is heavily oriented toward water, but embraces all aspects of EPA's environmental mission. The collection includes over 3000 monographs, 12,000 federal, state and local documents and technical reports, and 275 journals and abstract services. Among these are archival resources in public health and legislative areas. Holdings are distributed between the New York Regional Office and Edison.

The library serves regional and field office staffs, the Industrial Waste Treatment Research Laboratory, and Agency consultants and contractors. It is open to the general public, to whom reference service is provided as time and staff permit.

Annapolis, Maryland — Codes: 03C/EJD

Address: Library
U. S. Environmental Protection Agency
Central Regional Laboratory
839 Bestgate Road
Annapolis MD 21401

Telephone: (301) 224-2740 (CML)
(8) 922-3752 (FTS)

Librarian: Mrs. Margaret Munro

The library was established in 1964 in support of the laboratory in Annapolis. Its collection includes material on aquatic biota, analytical chemistry, automated laboratory techniques, industrial wastewater monitoring, mathematical modeling, hydrology, toxic/hazardous substances and oceanography. A special Chesapeake Bay collection is also maintained.

Holdings consist of approximately 700 technical and scientific books, 3000 reprints, 75 periodicals and a large body of EPA reports.

Reports from the laboratory deal with water quality management of the Chesapeake Bay, the Potomac River, the estuaries of the mid-Atlantic region, and the continental shelf off Maryland and Delaware. These reports are generated by EPA staff following sampling cruises in these areas.

Library services include acquisition, circulation, reference, information retrieval and interlibrary loan. They are available to EPA personnel, the state government, neighboring academic and scientific communities and, on a more limited basis, to consultants, contractors and the general public.

OPTS/TIC
Washington, D.C.

Codes: 03T/EJE

Address: U. S. Environmental Protection Agency
Office of Pesticides & Toxic Substances
Chemical Information Division
Technical Information Center, TS-793
401 M Street, S.W., Room E447
Washington DC 20460

Telephone: (202) 755-9336 (CML)
(8) 755-9336 (FTS)

Head Librarian: Geraldine D. Nowak, Technical Information Spec.

Staff:

| | |
|---|---|
| Robert Heisler | Librarian |
| Ann Simmons | Librarian |
| Hattie Sykes | Library Technician |

The purpose of the Technical Information Center (TIC) is to provide assistance to OPTS staff in support of the Toxic Substances Control Act (TSCA) and the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA).

The TIC was established in September 1979 by merging the holdings of the Offices of Toxic Substances and Pesticide Programs. While the collection emphasizes pesticides and toxic chemicals, other subject areas include epidemiology, oncology, teratology, genetics, ecology, environmental toxicology, statistics, and library and information science.

The holdings comprise 1500 books, 150 serial subscriptions, 300 technical reports, including an extensive collection of documents prepared for the Offices of Toxic Substances and Pesticide Programs, and over 55,000 journal articles and reports on microfiche.

Library activities and services include selection of documents, acquisition and cataloging for the division reference collections as well as the TIC, reference services, both manual and online, circulation, distribution of pesticide related materials (the Industry Assistance Office distributes toxic materials information), assistance to project officers

in report preparation, procurement of translations, anncuncement of new acquisitions, document delivery, demonstration of online searching and system capabilities, and preparation of library holdings lists and catalogs.

Microfiche and microfilm reader/printers, a fiche duplicator and a Xerox machine are available for the use of OPTS staff.

Library Services Office
Research Triangle Park, North Carolina Codes: 04B/EKB

Address: Library Services, MD-35
U. S. Environmental Protection Agency
Research Triangle Park NC 27711

Telephone: (919) 541-2777 (CML)
(8) 629-2777 (FTS)

Librarian: Libby Smith

Staff: H. Jean Myers
John Knight
Susan Fuller
Creighton Wellman

The facility was established in 1972 with the Office of Air Programs' library as a base. That library evolved through numerous government organizational changes. It was established in Washington, D.C., in 1950 with the consolidation of reference materials from the Divisions of Water Pollution Control, Sanitation, Industrial Hygiene, and Engineering Resources. In 1961 it was transferred to the Environmental Health Service of the Public Health Service. Subsequently, as programs decentralized, the library became essentially air pollution related and was transferred to the Air Pollution Technical Information Center in 1967. APTIC was relocated to Raleigh, N.C., in 1969 and in late 1970 it became part of EPA.

At present, the collection consists of approximately 4500 books, 650 journal titles, and extensive technical reports. There is a high concentration of air pollution-related material, with emphasis on the health aspects of environmental pollutants, especially pesticides, other chemical pollutants, air pollution control technology and meteorology. The library maintains complete EPA air pollution contract reports in hard copy and EPA and predecessor agency reports on microfiche.

The holdings also comprise those of two former facilities. The Division of Health Effects Research library was assembled in North Carolina in 1968, during the reorganization

of air pollution functions under the Public Health Service. The unit was transferred to EPA in 1970, along with the Perrine Primate Laboratory library, which was established in 1966. These collections stressed the physiological effects of long-term, low-level exposure of the population to certain chemical pollutants, such as pesticides, polychlorinated biphenyls (PCB's), heavy metals and other residues normally found in the environment, with strong emphasis on chemical analysis and neurological effects.

The Library Services Office maintains a close relationship with the neighboring university community. Duke University, North Carolina State and the University of North Carolina, Chapel Hill, are sources of interlibrary loans and their students and faculty use the EPA facility for reference work.

Services include acquisition and cataloging of books and periodicals, interlibrary loan, and circulation of tables of contents. In addition, literature searches are provided from a variety of computerized data bases.

Athens, Georgia

Codes: 04D/EKD

Address: Library
U. S. Environmental Protection Agency
Environmental Research Laboratory
College Station Road
Athens GA 30613

Telephone: (404) 546-3324 (CML)
(8) 250-3324 (FTS)

Librarian: Mrs. Charlotte Folk

Technician Ms. Janice Sims

The Environmental Research Laboratory library functions in support of the research and technical service staffs at the laboratory. The facility and the library began operation in 1966 at the present location in the periphery of the University of Georgia, in Athens.

The collection consists of approximately 2000 book titles, 7500 documents and technical reports and 175 current journal subscriptions. The primary subjects covered are chemistry, biology, agriculture and waste engineering. There is also material available supporting research in electronic engineering, limnology, chemical engineering and aquatic biology.

The reference services of the library are available to the neighboring university community and the general public.

OAQPS
Research Triangle Park, North Carolina Codes: 04G/EKE

Address: Office of Air Quality Planning
and Standards
Library, MD-16
U. S. Environmental Protection Agency
826 Mutual Plaza
Research Triangle Park NC 27711

Telephone: (919) 541-5255 (CML)
(8) 629-5255 (FTS)

Librarian: Ms. Pat Langelier

The OAQPS library was established as a unit of the Department of Health, Education and Welfare and was transferred from Cincinnati, Ohio, to Durham, North Carolina, in 1968. Since then it has undergone several parent organization changes and in April, 1971, was designated as part of the Environmental Protection Agency.

The library consists of approximately 600 books, 90 journals and newsletters, and a complete collection of EPA/OAQPS reports. The subject matter is air pollution and control technology, including material on costs, chemical technology, minerals and statistics. The reference collection emphasizes chemistry and engineering.

Services include selection and acquisition, circulation, interlibrary loan and reference. Library services are available to the EPA staff, the neighboring university community, and the general public.

Gulf Breeze, Florida

Codes: 04H/EKC

Address: Library
U. S. Environmental Protection Agency
Environmental Research Laboratory
Sabine Island
Gulf Breeze FL 32561

Telephone: (904) 932-5311, ext. 218 (CML)
(8) 686-9011 (FTS)

Librarian: Ms. Andree Lowry

Technician: Ms. Alice Pool

The library was established in 1967 in support of the laboratory at Gulf Breeze. Its holdings are mainly in the fields of pesticides, marine ecology, fishery biology and general science, with lesser holdings on comparative pathology, microbiology and neuroenzymology.

The collection includes approximately 1500 books, 170 periodical titles, 130 volumes of bound periodicals, 4000 reprints and 14,000 microfiche titles.

Library services consist of acquisitions, circulation, interlibrary loan and reference. The latter is extended on a limited basis to the general public.

ESRL - Meteorology
Research Triangle Park, North Carolina Codes: 04L/EKF

Address: Library
ESRL - Meteorology Division
U. S. Environmental Protection Agency
Research Triangle Park NC 27711

Telephone: (919) 541-4536 (CML)
(8) 629-4536 (FTS)

Librarian: Evelyn Poole-Kober

The library originated in 1958 at the Robert S. Taft Sanitary Engineering Center in Cincinnati, Ohio. Through a series of government reorganizations it was transferred to North Carolina in 1968 and became a part of EPA at Research Triangle Park in 1971.

Its major field of interest is the meteorological aspects of air pollution, including model development and application, climatic analysis, and geophysical studies.

The collection includes 3200 books, 125 scientific journal subscriptions and 1300 technical reports. The library also holds a collection of climatic data material consisting of approximately 4000 climatic data reports on microfiche, over 400 rolls of film of synoptic data, surface and vorticity charts, and a large body of topographic maps.

Interlibrary loan, acquisition, circulation, literature searching and reference services are provided to EPA personnel and to NOAA meteorologists. Reference service is available to Agency contractors, local university faculty and students, and the general public.

Cincinnati, Ohio

Codes: 05B/ELB

Address: Library
Environmental Research Center
U. S. Environmental Protection Agency
26 West St. Clair Street
Cincinnati OH 45268

Telephone: (513) 684-7701 (CML)
(8) 684-7701 (FTS)

Librarian: Ms. JoAnn Johnson, Chief, Library Services

Staff:

This library is a composite of the holdings, dating from 1950, of the Public Health Service and the Federal Water Pollution Control Administration. The facility was established in 1971 and designated as the central scientific and technical focal point for all EPA libraries. It was moved to the ERC building on the University of Cincinnati campus in 1976.

The major subjects in the collection are water pollution, water hygiene, solid waste management, advanced waste treatment and disposal, air pollution, radiation, engineering, physics, chemistry, biology, microbiology, bacteriology, and related sciences. The holdings consist of extensive technical reports in these areas; 10,000 books, including general legal materials; 7000 bound periodicals (most back issues are on microfilm); 1300 current journal and newsletter subscriptions; 11 newspapers; 50,000 reports, either in hard copy or on microfiche; and various other EPA publications.

Cincinnati, Ohio (cont'd) Codes: 05B/ELB

Library services include acquisitions, cataloging, circulation, current awareness lists, interlibrary loan, scientific and technical reference, microfiche duplication, document delivery, computer literature searching and regular SDI runs.

The ERC facility provides service to all EPA libraries in two areas. It conducts computerized literature searches, permitting access to over 30 million journal articles, books and reports. It is also responsible for the central cataloging of all books, using OCLC.

Material may be borrowed only by EPA personnel or the employees, students and faculty of the Greater Cincinnati Library Consortium member institutions. All other requests are handled through interlibrary loan. Books will be loaned, journal articles and technical reports will be reproduced. Telephone requests are accepted for rush ILL's.

Library hours are 8:00 a.m. to 4:30 p.m., Monday through Friday. The library is open to the public and contractors for reference use only, with assistance provided as time permits.

Copying facilities are available to the public, with a limit of 15 pages.

Duluth, Minnesota

Codes: 05C/ELD

Address: Library
U. S. Environmental Protection Agency
Environmental Research Laboratory
6201 Congdon Boulevard
Duluth MN 55804

Telephone: (218) 727-6692, ext. 538 (CML)
(8) 783-9538 (FTS)

This library was founded in 1967 for the purpose of assisting the research staff of the then National Water Quality Laboratory.

Its major fields of interest are fisheries biology, analytical chemistry and water pollution. The holdings comprise 1400 books, 150 journal subscriptions, an extensive reprint collection, microfiche reports, and over 2500 federal, state and local documents and technical reports.

Library services include mailing reprints, acquisition, circulation, interlibrary loan and reference. The reference services of the library are available to the neighboring university communities and the general public.

Ann Arbor, Michigan

Codes: 05D/ELC

Address: Library
U. S. Environmental Protection Agency
Motor Vehicle Emission Laboratory
2565 Plymouth Road
Ann Arbor MI 48105

Telephone: (313) 668-4311 (CML)
(8) 374-8311 (FTS)

Librarian: Carol Bramson

Staff: Darcy Enos
Debra Talsma

Hours: 8:00 a.m. - 5:00 p.m. (EST)

The Motor Vehicle Emission Laboratory was established in Ypsilanti, Michigan, in 1966 as part of the National Air Pollution Control Administration. Under EPA, in 1971, the facility was moved to its present location in Ann Arbor.

The library was formed in 1975. Its collection concentrates on automotive engineering and air pollution from mobile sources. Holdings consist of books, periodicals, technical papers, patents, legislative materials and microfiche of documents and reports.

The library provides interlibrary loans to all libraries in accordance with copyright law and existing agreements. Requests are accepted from EPA libraries either in writing or by telephone; other libraries should submit an ILL form. Material is loaned for three weeks.

A photocopier and microfiche reader/printer are available to users. The library staff will photocopy up to 25 pages as time permits.

Services provided to EPA staff include reference, literature searching, circulation, interlibrary loan, selection, acquisition and current awareness announcement. Reference service is available to users from the university community, industry and the general public.

Ada, Oklahoma

Codes: 06B/EMB

Address: Library
U. S. Environmental Protection Agency
Robert S. Kerr Environmental Research Laboratory
P. O. Box 1198
Ada OK 74820

Telephone: (405) 332-8800 (CML)
(8) 743-2241 (FTS)

Librarian: LoRene Fuller

The library was established in 1966 as part of the Federal Water Pollution Control Administration. The scope of the collection, heavily oriented toward water pollution and supporting scientific disciplines, has been broadened since the creation of EPA to cover other areas of environmental pollution and control. The holdings consist of approximately 2000 technical reports, 180 journal titles, 2000 maps and an extensive collection of reprints, indexes and abstracts.

Primary subject areas are ground water quality and pollution; waste management (soil treatment and acquaculture technology); agricultural pollution (irrigation return flow and animal feedlot wastes); and chemical pollution (petroleum, petrochemical, organic chemical and combined industrial/municipal wastes).

Special collections include the Animal Waste Management File on microfiche, a complete set of EPA reports on microfiche, and a comprehensive set of the U. S. Geological Survey Water Supply Papers.

Services include acquisition, circulation, reference, literature searches, interlibrary loan and bibliography preparation. Although the library serves primarily the EPA staff, reference services are available to the neighboring university communities and the general public.

Denver, Colorado

Codes: 08B/EOB

Address: NEIC Library
U. S. Environmental Protection Agency
Building 53, Box 25227
Denver Federal Center
Denver CO 80225

Telephone: (303) 234-5306 (CML)
(8) 234-5306 (FTS)

Librarian: Shirley Engebrit

The library of the National Enforcement Investigation Center of EPA's Office of Enforcement was established in Denver in January, 1972.

The collection comprises case files--technical reports, data compilations and background information used to develop the basis for field studies and enforcement actions; research and development reports on municipal, industrial and agricultural pollution abatement practices; enforcement conference documents, including conference summaries, proceedings and technical reports; technical reference materials covering chemistry and biology, pesticides, toxic substances, air technology, field study methods and water quality standards for the western and southeastern United States; 1000 books; 100 journal subscriptions.

Services include procurement of technical documents, books, and journal articles from various sources as required for special needs, and distribution of reports. The NEIC also has extensive computerized literature searching capabilities in addition to its library resources.

Las Vegas, Nevada

Codes: 09B/ERB

Address: Library
Environmental Monitoring & Support Laboratory
U. S. Environmental Protection Agency
P. O. Box 15027
Las Vegas NV 89114

Telephone: (702) 798-2648 (CML)
(8) 595-2648 (FTS)

Librarian: Doreen Wickman

Staff: Mary E. Campbell

The EMSL Las Vegas library was established in 1966 as part of the Public Health Service, Southwestern Radiological Health Laboratory. Materials were primarily oriented toward nuclear science at that time. When the facility became part of EPA in 1970, the collection was broadened to include all aspects of environmental science.

The holdings include 3800 books, 25,000 hard copy technical reports, about 13,000 microfiche reports, and subscriptions to more than 150 scientific journals and newspapers.

General library services are provided to EPA staff, which include acquisitions, circulation, interlibrary loan and computerized literature searches. Reference services are available to the general public.

Corvallis, Oregon

Codes: 10B/ESB

Address: Library
Corvallis Environmental Research Laboratory
U. S. Environmental Protection Agency
200 SW 35th Street
Corvallis OR 97330

Telephone: (503) 757-4731 (CML)
(8) 420-4731 (FTS)

Librarian: Ms. Betty M. McCauley

Technician: Ms. Susan Hammerschmidt

This library was established in 1966, when the Pacific Northwest Water Laboratory of the Federal Water Pollution Control Administration was opened. Thus, the emphasis was on marine, estuarine and fresh water quality. Since the creation of EPA, however, the laboratory's responsibilities and library collection have been broadened to include the areas of air, wetlands, non-point sources, cold climate, pesticides, energy-related research and acid precipitation effects.

Approximately 345 journal titles are received regularly, including several abstracting and indexing services for subject access to the literature. These are supplemented by a collection of books, as well as reports from Federal, state, local and international sources. Microfiche and microfilm are used to enlarge the holdings in a small space.

The library conducts computerized literature searches and procures translations, patents and other special materials. Interlibrary loans are processed with EPA and other government agencies, as well as major libraries throughout the United States.

The Corvallis Laboratory is one of 15 major research facilities of EPA's Office of Research and Development.

Corvallis, Oregon (cont'd) Codes: 10B/ESB

Periodical and report literature and reference materials are selected primarily to serve the needs of CERL's national research programs on the effects of environmental pollutants on terrestrial, freshwater and marine ecosystems, and the development of predictive models on the movement of pollutants in the biosphere. The library also collects all EPA reports and other Agency publications, much of which is on microfiche.

Services are provided primarily to the EPA staff. EPA contractors, university professors and students, and private citizens also use the library.

Wenatchee, Washington Code: 10D

Address: Library
Wenatchee Pesticides Research Branch
U. S. Environmental Protection Agency
P. O. Box 219
Wenatchee WA 98801

Telephone: (509) 662-4243 (CML)
(8) 390-0243 (FTS)

Librarian: None

The library was established in 1952 to support pesticides research at the Wenatchee facility.

The holdings in this specialized area include 360 books, 52 journals, reprints classified by subject and author, and copies of published papers. The pesticide information section contains state pesticide handbooks, short-course manuals, pesticide dictionaries and indexes, analytical methods data, and material on pesticide poisoning, health hazards and safety precautions.

Library services are available to the EPA staff, as well as local and state health departments and other interested persons.

## Legend of EPA Library Codes
